

Written and publication authorized by Home Rule and Taxpayers' League and to be paid for by them at the rate of 40 cents per inch.

Wake Up, Mr. Voter

Or the Special Interests Will "Put Over" Their Political Trick As Planned for Tuesday—By Means of the PINK BALLOT!

The stage is all set—you are the actor—Tuesday the curtain goes up—when it comes down you will either pay more taxes or less.

Which do you want to do? It's up to you.

Twelve years ago the taxes

in Wisconsin were three million dollars—today they are eighteen millions—you have paid your share and the trusts sit by and smile—and smile at you—and *unless you vote NO on the Pink Ballot you will pay more and a plenty.*

Shun the Pink Ballot as a Serpent

Let's analyze one of its fangs.

In the Initiative and Referendum Amendment is found this clause:

"No law, making any appropriation for maintaining the State Government or aiding any public institution not exceeding the previous appropriation for the same purpose shall be subject to rejection or repeal under this section."

What does this mean? It means another trick—it means that the interests have carefully arranged so that you may have a voice in small matters, but have as carefully pro-

vided that you have nothing to say on the big things—it means that

You Can't Stop the Big Leaks

—they will remain open and you keep them supplied—you are to be their easy mark unless you vote Tuesday and vote NO ten times to prevent all kinds of freak legislation and the creation of useless offices by which you suffer, and for which you pay.

Follow the Advice of the Home Rule and Tax Payer's League:

Vote NO Ten Times! Keep Down Your Taxes!

Vote NO on the Pink Ballot

WEATHER FORECAST.

Increasing cloudiness with probably showers late tonight or Tuesday warmer in east portion tonight, cooler Thursday, fresh south to west winds.

VOTE RIGHT TOMORROW.

The cause of business depression, in this country, and the touch of hard times, just now felt by so many industries, is not the European war. That has but little if anything to do with it. The cause lies so close at home that it is easily overlooked, and the fact that it is the voters, are responsible, is not pleasant to contemplate.

We made a mistake when we placed the reins of government in the hands of the democratic party, for the penalty was as sure to follow as time was to pass. The democratic party was always a party of incompetency, never more apparent than today. The present administration spent \$100,000,000 more money last year than was ever spent by an administration, and now the people are called upon to pay for this reckless waste of money by a special tax.

This feature is not the worst, for through persecution and drastic legislation, many of our industries have been crippled, and some of them ruined. The railroads have sought in vain for relief, and many of them are on the verge of bankruptcy. An army of idle men already flood the country and the ranks are constantly filling up.

These conditions exist, not because money is scarce, for there is more money in the country today than ever before. Idle men always means idle capital, and when money is forced into retirement, as is the case in the present time, hard times is the natural result.

No argument is necessary to convince any thinking man that it is time to call a halt, and tomorrow is the day to issue the call. While Wisconsin is not under democratic rule, it is in worse condition because we have been hypnotized by the "Wisconsin idea" and an ambition to lead the procession on impractical reforms.

What we need is a return to sanity and common sense, and the first opportunity presents itself tomorrow. A vote for the straight republican ticket means everything in the redemption of Wisconsin, and a vote of "no" against all of the infamous amendments is a nail in the coffin of impractical reforms. Let us consult our own best interests by voting right.

The national government must endure two years more of democratic misrule, but when the time comes there will be no hesitancy in turning the rascals out. There is a limit to endurance and we have already passed the limit.

ELECTION TALK.

Tomorrow—Tuesday, November 3d—is election day. The voters of the state of Wisconsin will decide by their ballots whom they wish for governor and to fill the various state offices. They will express their choice on the question of United States senator—McGovern or Hustling—and will also decide on the make-up of the next legislature, the members of which are expected to make such radical changes in state affairs.

Careful consideration of the question, good, sober and honest reflection, a desire on the part of the voters to cast their ballots for their own personal benefit, will play an important part in the voting. For the first time in years the average voter in Wisconsin is thinking for himself. He is not blinded by the vague promises of the ultra reformers; he is not blinded by the dramatic appearance into the political arena of the state's senior senator in support of an independent candidate, but he is figuring out his tax receipts dollar by dollar and wondering if reform pays after all when it hits his pocketbook and he receives no direct benefit.

The advent of J. J. Blaine into the campaign came as an eleven hour thought to a little coterie of men who saw the ground slipping from under their feet. Men of both republican and democratic persuasion, men who long have counted themselves the formulators of the policies of the average voter. Blaine announced his candidacy. La Follette arrived home and accompanied by a faithful private secretary, a family physician and a fine dramatic setting, of a sick man, rising from the couch of a sanitarium to declare to his "dear people" of Wisconsin the error of their ways in thinking for themselves, the invasion of the state began.

That Blaine will receive all the disgruntled republican votes, votes that otherwise might have gone to Karel out of revenge, is most certain. But Blaine will also receive a sprinkling of democratic votes. He will have the democratic members of the Aylward-Davies combination who know if Karel should win, it means the end of their domination of Wisconsin patronage under the democratic national government. He is also certain of the votes of the Bull Mooseers, who are against the government anyway. But take all these elements and shake them up and the only solution is that Blaine will be a bad third in the race and nothing will have been accomplished.

Meanwhile Philipp has traversed this state from end to end. He talked at crossroads, at packed meetings in halls. He has not needed a special private secretary, a special family physician. He has not torn his collar and denounced everyone and everything, but has quietly and convincingly told his story to the voters of the state in a manner that indicates now point to be most convincing. Philipp is a man in every sense of the word. A careful, painstaking business man. A man of the people, for the people, and seeking to do good to the best of his ability in undoing the great injustice done the taxpayers of the state in the last decade.

That the average voter understands this is certain. They also understand of electing a republican United States senator, a man who will vote for the return of prosperity, for an end of the regime of chimerical dreaming legislation that has been enacted since the Wilson administration began and will endorse Francis E. McGovern. "Hustling the 'villainous' Democrat, tool of the Blaine-La Follette faction, who defeated a man of ability for the senatorial nomination through political trickery, is not the representative this

state wants in Washington.

Then, too, behind the republican governor-to-be, Philipp, there should be a strong legislature. A body of men whose sole idea is the safe and sane administration of state affairs, the reduction of the cost of state government by the elimination of wasteful methods and the reduction of taxes to a plane consistent with the purses of the taxpayers for the benefits derived. Rock county can do its share in this respect by electing L. C. Whitte and A. J. Winegar as members of the next assembly from the first and second districts.

Both these men are strong, capable business. Safe and sane on legislative questions, whose campaigns have been based upon the proposed remedies suggested to bring Wisconsin back into the column of states where good business judgment is at a premium and not wild cat legislation which has made Badgerdom the experimental station of every political fallacy for years past.

While doing this work the candidates on the county ticket of republican persuasion deserve commendation and support. They should be given a vote of confidence for they have ably handled county affairs during the past two years and are working along the same line as the rest of the republican ticket.

The polls open at six in the morning. They close earlier in the country districts, but in the cities at eight. There is plenty of time given for every voter to cast his ballot and it is to be hoped all go to the polls and register their votes on the questions which are of so much importance to the state as a whole, to the community itself. This is the campaign when the voter must think for himself and vote as his personal interests dictate, and not be led around like so many cattle to be sold and battered for a cash consideration. That day is past in Wisconsin and it is a free and independent country.

FAIR AND SQUARE.

The Home Rule and Taxpayers' League have played fair and square with the voters of the state. Their list of endorsements of candidates to be voted on Tuesday is made up of names of political affiliations of the candidate, and the fact they have endorsed both Whitte and Winegar in Rock county shows that the voters will make no mistake by voting for them. They also endorse Philipp and McGovern. Read the list and you will appreciate what this organization has sought to do. Reduce state taxes and place the reins of government in the hands of men capable of handling them, and not in idealists, university experimenters and ultra-progressives whose sole desire is to exploit the "Wisconsin idea."

VOTE "NO" ON AMENDMENTS.

One of the most important issues of the present campaign is the defeat of the ten proposed amendments to the state constitution. These ten amendments have been discussed in detail, in general, and in particular sections, so there is no need to review them again at this time. They are all bad. They should be voted down and the only way to do this is to vote "no" on each and every one. The friends of the amendments will vote for them and a great many voters will follow them, so the only way to safeguard your individual interests is to register your protest against them by voting "no" in the square left for that purpose on every one of the ten. Do not forget them. Vote "no."

WATCHING JANESVILLE.

The whole state is watching Janesville and its tax levy, and incidentally the wonderful reduction in the two years the commission form of government has been in operation. Janesville has received more direct benefits from this form of government in the short period it has been in operation than in any previous decade of the old-fashioned council government. The taxpayers of the city have received dollar for dollar in value for taxes paid and now the taxes are reduced. It is a great talking point for Janesville residents to use in seeking new industries to settle here, and one that is not being overlooked by the business men of the state.

Milwaukee prize fight promoters announce that they are through with the game. They have lost money on it. It may be all right, but when the bugs seek to exploit themselves by lip-droppers, the same as has been experienced in Janesville in recent bouts it is time to call a halt to the game. The old-fashioned "manly art of self-defense" has passed into a commercial stage that makes it disgusting.

Attorney General Owen and Candidate L. C. Whitte rare the voters of Janesville a few cold facts for solemn consideration Saturday night that should bear fruit at the polls Tuesday.

Wisconsin sprang a surprise on the Chicago rosters Saturday and also on its faithful alumni who did not appreciate what the Wisconsin spirits amounts to.

Vote the republican ticket from top to bottom and be assured your vote is cast for men who are amply qualified to fill the offices they seek.

Sell your house or any other piece of real estate you may have through the want ad column—the cost is but a trifle.

OUR National Opportunity LESSONS for AMERICA from the WAR

ON COMES GOLDEN FLOOD OF NEW MONEY.

(By Robert H. Benedict.) Money in a golden flood will be poured into the channels of trade with the opening of the federal reserve bank system on November 18. Money is the lifeblood of commerce, and the infusion of \$400,000,000 of new currency through the twelve regional banks will quicken business and industry everywhere.

Completion of plans for a \$135,000,000 cotton pool, designed to furnish money to southern planters to tide them over for twelve or eighteen months, means relief in a quarter that has suffered much strain during the past two months. During the past few days cotton has begun moving abroad in great shipments.

What will half a billion of new money do for us? It will make possible the financing of building projects, thus creating greater markets for structural steel, other building materials, and the labor of men in building trades. It will expedite the handling of crops not already under way, and for which there is not so much foreign demand as for wheat.

On The Spur of The Moment

The Common Guy. The common guy takes up his gun and starts for war upon the run. He wades in mud, he wades in gore. To shoot men he never saw before. Not knowing what he's fighting for, he only knows he's gone to war. He charges ramparts day and night. And stabs and slays with all his might.

He meets some other common slob who's been forced to a fiendish job. They meet and lunge and shoot and thrust. Not knowing why save that they must.

Of him no royal poet sings. The war game is the sport of kings. The two who meet might well be friends.

Work of his side for common ends. But still they slash and kill or maim. Each other, for it is the game. We wonder if these common guys in Europe ever will grow wise. And cease the kings for all they're worth.

Until they've chased them off the earth. The king is of historic note. The common guy, he's just the goat.

Once Again.

Hear the old familiar howl. Hear the old perennial growl. We have heard it oft before. We have heard it o'er and o'er. Never has a year gone by. But we've heard the self-same cry. Now it's sounding far and near: "Turkeys will be scarce this year."

Signs of the Times.

The janitor of the Hague peace palace is still on the job, but he doesn't have much to do.

What has become of the old war phrase: "I regret to report?" Whoever this Nancy is that is mentioned in the French dispatches, she must be popular. She was recently pressed by 30,000 Germans.

One of the horrors of the war will be the pest of book agents who are sure to come around with the "authentic histories."

The Tired Business Man should perk up a bit now. Musical comedies are coming into style again.

An eastern paper published an account of a wedding under the heading "Enlisted for the War." Perhaps no comment is necessary.

It is to be hoped that Ambassador Rusty Bey will enjoy his prolonged vacation in Constantinople.

What has become of the man who used to say: "They do everything better in Europe?"

But the regular fall season will not open until there is ice on the sidewalk.

The pork barrel begins to look

mand as for wheat.

It will place funds within reach of manufacturers for the purchase of raw materials. It will enable merchants to replenish their stocks for winter and spring trading. Increased commercial activity will mean greater railroad traffic, with prosperity for transportation systems.

Of course no one expects all this money to be turned loose at once. The managers of the regional banks will see to it that it is issued only on good commercial paper and to the right parties, but its presence in financial centers, and the gradual filtration into the channels of trade of a large part of it, will relieve business conditions generally.

The financial outlook grows brighter daily. New York banks now have a surplus in reserves, instead of a \$50,000,000 deficit. Bond sales, in advance of the reopening of the stock market, reached \$1,500,000 per day in New York. Foreign holders of American stocks are beginning to figure that America is the best place for investment after the war.

Watch things boom before the year is over.

more like a tin of compressed beef. Those English and German bread-boughters to dress a battle. Governor Glynn of New York demands that all nations disarm. That certain ought to settle the matter with neatness and dispatch.

Kansas editor grew excited and committed suicide. Somebody must have called and paid a subscription. Italy has turned her mobilized troops into the fields to harvest the spaghetti crop.

Easy Method.

"I'm tired of life." "That being the case, go out to California and shoot 'Banzai!'"—Birmingham Age-Herald.

Read Gazette Want Ads every day. Do not wait for somebody to tell you that he saw an ad in the Gazette which he thought might interest you. Sell your house or any other piece of real estate you may have through the want ad column—the cost is but a trifle.

MAJESTIC THEATER

Tomorrow

"HE DANCED HIMSELF TO DEATH"

2-Act Vitagraph Special Feature Comedy

A warning to all those afflicted with "tangoitis". It's a sad story, mates, but you can't help laughing.

Herman Underlunk, light-footed and light-headed, has the modern dance craze. After taking dancing lessons "by mail," he tries the Chicken Wiggle, Fishcake Flop, and various other innovations on the tops of lofty buildings, driving a wild taxi, catching ferocious burglars, and on the battlefields of Mexico. After innumerable excruciatingly funny incidents and death-defying stunts, he is killed in battle, but even death cannot separate Herman from the Tango Craze, and the funeral band starts things again. The climax is decidedly startling, as well as terrific laugh creator.

AMERICAN FARMERS

HARD HIT BY TARIFF

Imports Increase During Past Eight Months While Exports Decrease.

(By Winfield Jones.) Washington, D. C., Oct. 31.—In the eight months ending with August, 1914, our imports had increased \$114,000,000 as compared with the corresponding eight months of the preceding year, while our exports for the eight months of 1914 were \$204,000,000, less than for the same period of the preceding year.

The great bulk of this enormous increase of imports under the democratic free-trade tariff has fallen heavily upon American farmers. Free trade in agricultural products has been a great benefit to the farmers of foreign countries. How the American farmer has fared. To the extent that the people of the United States consume the agricultural products of foreign countries they do not consume the agricultural products of their own country. A pint cup holds only a pint. It is one thing for an American farmer to fill that cup, and a totally different thing for a foreign farmer to fill it. When the foreigners are sending their products to this country the American people are buying less of American farm products to that extent American farm hands are being put out of business for the benefit of foreigners.

How has this worked under the democratic free-trade Underwood law in the seven months ending August 31, 1914. There was an increase in the value of cattle imports amounting to \$9,000,000; an increase of corn imports amounting to \$10,000,000; an increase of \$3,000,000 in oats of imports; an increase of \$13,500,000 in hides and skins imports; an increase in dairy product imports of \$30,500,000; an increase in vegetables of nearly \$5,000,000; an increase of manufactured wool of more than \$30,000,000; an increase in imports of wheat of \$15,000,000; an increase of egg imports of \$1,000,000.

The total imports of foodstuffs in crude condition and food animals was in round numbers \$160,000,000 which was an increase of \$37,000,000 as compared with the corresponding eight months of 1913. Of foodstuffs partly or wholly manufactured, the imports amounted in 1914 to \$181,000,000 as against \$134,000,000 in the eight months of 1913. There is an increase of nearly \$38,000,000 of imports of articles which could and should be produced by American farmers and sold to the American consumers. In the same period mentioned there was a decrease in 1914 of exports of foodstuffs in crude condition and food animals amounting to more than \$15,000,000 while in exports of foodstuffs, partly or wholly manufactured, the decrease in 1914 amounted to more than \$32,000,000. Thus the American farmer got it coming and going. He sold less to the American people and less also in foreign markets. Like a two-edged sword democratic free-trade has cut into the prosperity of the American farmer.

The farmer has the remedy in his own hands at the polls next Tuesday.

Make the Milk Jug Sweet.

To sweeten a milk jug, scald it with boiling water, then fill with cold water and add a teaspoonful of salt and leave it for five minutes before emptying it.

Little things or big things, you can just as well buy them now.

A GOING OUT OF BUSINESS PRICE

SPECIAL NOTICE—MY HOME IN RIVERVIEW PARK, 210 CLARK STREET, FOR SALE OR FOR RENT.

There has never been such a sale in Janesville because there has never been a stock of such size and quality put onto the market. You might just as well take advantage of it, and you must do it pretty quick, as the sale will not last much longer. We have many interests and much work, calling us to our Beloit store, and we must go soon. Be wise and save while you can.

LEY & SON

BRIDGE

This last great sale that we are now offering the people of Janesville is "on the square" just as our sales always have been. We are giving you goods we advertise at prices we advertise.

WOMAN'S PAGE

The Evening Chit-Chat

BY RUTH CAMERON

THE FUTURE EYE.

TO EVERY one hundred persons who can appreciate the thing that is there is perhaps one who can appreciate the thing that might be. Some friends of mine who were visiting at a summer resort to which I have been for many years, were greatly attracted by a certain house. It is a dear little white cottage with a sloping roof and a big white chimney in the center, the type known as Cape Cod Colonial. It is freshly painted, the windows are white, and the garden is a wonderful, old-fashioned garden with Sweet William and larkspur at one side, and a row of hollyhocks in front of the house. My friend never fails to exclaim with admiration when she passes that house and to say that she wishes she might have one like it.

Now one day we passed a shabby red cottage with a dilapidated looking annex of some sort propped up against it in the manner which gave us the word "lean-to." The place was for sale. A native who was with us pointed it out to my enthusiastic friend. "There's a good cottage for you," he said. She thought he was humorously inclined. "Not at all," he protested. "That's just the way the cottage you're so crazy about looked before the folks who have got it now took it. It was painted in white, pulled down the lean-to and painted a few flowers, and now everybody stops to admire it."

"We all thought that woman was crazy when she bought it, but I guess she knew what she was about all right. She had an offer of a thousand more than she paid for it the other day."

Of course she knew what she was about. She was the one person in a hundred who could see and appreciate not only the thing that was but the thing that might be.

Before Fulton steamboat made its first trip, it was impossible for him to get the capital he needed for his venture. When Stephenson's steam engine was about to be tried out, one of the scoffers offered to "eat a wheel" if it ever attained a speed of ten miles an hour. It eventually made thirty miles.

Twenty years ago people who paid good money for undeveloped land some miles from the center of New York City were laughed at; today apartment blocks are starting up on these farms and the man who owns them are millionaires.

When Mr. Ford started putting down the price of automobiles everyone thought that he was crazy and it was suggested that he should be taken to a lunatic asylum. No one thinks he is crazy now.

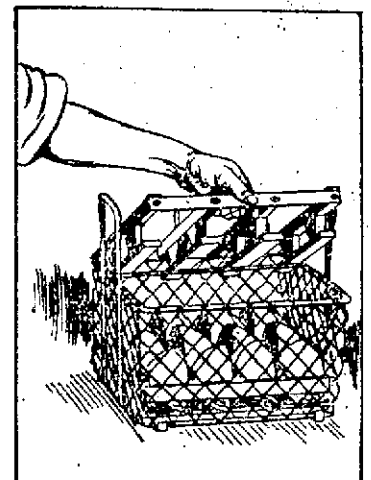

All these people saw what might be, while the detractors could not see an inch beyond what was.

Yes I know there are plenty of people who see what might be and see it wrongly. But that does not justify the people who never see or try to see anything but what is. The great things of the world are for those who have the future eye, who see what might be and see it truly.

SAFETY FOR THE CUPS

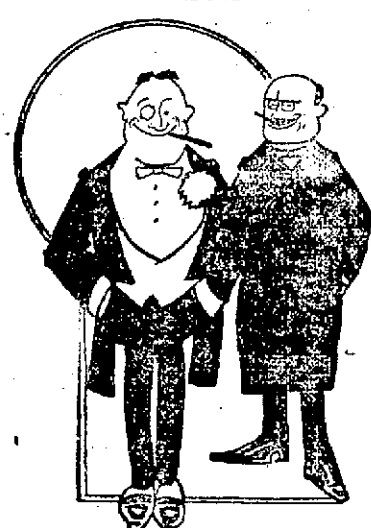

Basket Which Holds the Pieces in the Dish-Washing Machine.

Machines have recently met the problem of dishwashing to a certain extent, but not the problem of dish-breaking, for while most of the machines in use are effective enough as far as the cleaning operation is concerned, it is said that they are hard on the crockery, which is damaged in greater extent. The basket which is shown in the cut herewith is said to eliminate the breakage. In treating fine dishes the handles are likely to be knocked off, but this is said to have been entirely overcome

PACKING CUPS FOR THE DISH WASHER.

by the use of the baskets, which are made to fit the size of cups used, and when packed in the basket the cups do not touch each other. The basket contains two racks, the top rack resting on the side of the basket while the lower tier of cups is being packed. In this way additional table space is not needed. The baskets containing the cups are placed in a cleaned, and removed without danger of injury.

HOW DID HE KNOW?

Green—I've a new car that's a beauty. It runs so smoothly that you can't feel it. Perfectly noiseless; no doors, and, as for speed, it whizzes. You can't see it go by!

Friend—Can't feel it, can't hear it, can't smell it! I see, how do you know you have a car at all?

Heart and Home Problems

Dear Mrs. Thompson: We are awful bashful. How can we overcome it?

BASHFUL AND ANXIOUS.

Bashfulness is caused by a lack of confidence in yourselves, due to lack of experience. Just make up your minds that you are going to get along all right and pick out someone who seems lonely and try and make that person have a good time. If you can forget yourselves you will not be troubled any more and the way to forget yourselves is to become interested in someone else.

Dear Mrs. Thompson: (1) I would like very much to know how to remove hairs from my arms.

(2) Could you give me a remedy for shiny nose.

(3) Also a good corn remedy.

M.L.L.E. X.

(1) There is nothing that will successfully remove superfluous hair except the electric needle. That does it thoroughly and permanently, but it is expensive.

(2) If the skin is either moist or shiny, lotions containing zinc oxide or calamine should be dabbed on and allowed to remain on the face for half an hour if necessary.

This is the lotion recipe: Tincture of benzoin, 5 drops; zinc oxide, 1/2 dram; glycerine, 1 1/2 drams; lime water, 2 ounces.

(3) Soak feet in warm water and apply the following prescription night and morning for five days. Again soak the feet for twenty minutes or more, then remove as much of the center or core of the corn as possible, leaving the hard rim to protect it from pressure. Or apply a strip of adhesive plaster between corn and toenail. It takes off pressure and does not

The Wife's Money

Mr. Stockholm, the postmaster and owner of the general store at Butts Corners, had passed over to the great beyond and his heirs were hastening to divide such goods as he left behind him. A sale was in progress. The store contained specimens of everything he had had in stock since the civil war.

Mrs. Northrop determined to profit by this opportunity to buy at a bargain and ordered the horse put to the "demo-crat wagon." Mr. Northrop was allowed to accompany her as driver and general utility man.

Her sample person was swathed in a gray calico dress. She wore a small red plaid shawl over her shoulders, and a shaker bonnet.

The carryall drew up to the platform in front of the store and Mrs. Northrop laboriously descended and entered. Along the platform a line of men were lifted back against the wall, smoking, for this store served as club house and general lyceum and here all national questions were thrashed out to the satisfaction of the regular attendants. Mr. Northrop hitched the horses and joined the group of smokers.

After an hour or so he rose and entered the store. Before his wife were piled her purchases and the cheerful clerk in shirt sleeves and oil cloth apron was going over the bill.

Checking off the articles as he read, his left lay quaint old cotton prints, calfskin shoes of ancient make, queer dishes of opaque colored glass, and a Balmoral petticoat. Few women now alive ever saw one of these once famous garments. The clerk was adding to this pile as he read:

Two bolts of unbleached muslin. Ten yards red flannel. Four cards white china buttons. One box ribbon, emerald green. Two cakes sassafras soap. Two pairs red and white striped stockings.

One bottle Hoyt's German cologne. One pair of white cotton gloves. One box tallow candles. One breastpin, red glass setting. Then followed groceries: Molasses, brown sugar, tea, pepper, etc., and lastly a tin wash boiler. The bill was \$4.85.

The clerk was carefully going over the addition and Mrs. Northrop was counting out the money. Mr. Northrop edged round to her side and said in a meek, low voice:

"Marie, I'd like to have a sack of tobacco."

"Well, you can't have it," snapped Mrs. Northrop, stowing away a roll of bills in her pocket.

"Get the horses round and help load these things in. We must get home by walking time."

YAH! I AM A NATIVE OF DER FATHERLAND

What European country.

BAD BLOOD.

Hatred of the Nations for One Another.

This European war was born of the hatred caused by earlier warfare—it will engender other wars between the same nations in the future. The sons yet unborn will carry this hatred in their blood to blaze into warfare when the spark is touched by Kings or Statesmen who are yet in infancy.

It's bad blood that makes your liver sluggish and the same bad blood causes your stomach muscle to lose their elasticity and become flabby and weak and that means indigestion.

Dr. Pierce's Golden Medical Discovery, purely vegetable and free from alcohol or narcotics, is not a secret remedy for all its ingredients are printed on wrapper.

Take it as directed and it will search out impure and poisonous matter in the stomach, liver, bowels and kidneys and drive it from the system through the natural channels.

It will penetrate into the joints and muscles, and dissolve the poisonous accumulations. It will replace all the bad blood it drives out, with rich, pure blood full of vital force. It will furnish you with the kind of blood that increases energy and ambition, that puts the entire body in such perfect physical condition that brain or muscles know no fatigue.

It will clear the skin of eczema, pimples, rash, blotches will dry up and disappear; boils, carbuncles and other evidences of tainted blood will pass away never to appear again.

Get Dr. Pierce's Golden Medical Discovery at any medicine dealer today, in either liquid or tablet form as you prefer. It's the one great blood maker and purifier that all weak or ailing people ought to start to use at once. You want good blood, good health and clear skin, get a supply today.

Every Day Talks To Every Day People

BY FRANCES JOYCE KENNEDY.

In a farming community where every man knew an expected neighbor, a horse was one night taken from a resident's barn. It was a horse of exceptional worth and the owner, as one man, roared up and down the street, shouting the excitement of the affair had dwindled a bit the farmers were talking it over at the village store. Each man present admitted that he had never, prior to this, locked his barn door. They were all emphatic in the declaration that such lax methods were past events with them. "Lock your barn when you have a horse in it," one commented the storekeeper. "An ounce of prevention is better than a pound of cure—but you cannot insist that into the mind of the average man."

From stealing horses to raising a family is a far cry. The two facts are not so far apart as they seem, but the motto that the old storekeeper handed out to the farmers congregated in his store can be taken home and tacked upon the wall, in plain sight, in every home where a family is being raised in our country today.

An ounce of prevention is better than a pound of cure. The two facts are not so far apart as they seem, but the motto that the old storekeeper handed out to the farmers congregated in his store can be taken home and tacked upon the wall, in plain sight, in every home where a family is being raised in our country today.

DOINGS OF THE VAN LOONS—That High Cost of Living Isn't So Bad, After All.

BY F. LEIPZIGER

The Trey O' Hearts

A Novelized Version of the Motion Picture Drama of the Same Name
Produced by the Universal Film Co.

By LOUIS JOSEPH VANCE

Author of "The Fortune Hunter," "The Brass Band," "The Black Dog," etc.

Illustrated with Photographs from the Picture Production

Copyright, 1914, by Louis Joseph Vance

In this nefarious business nothing hindered and none opposed him. But for a single lighted window in the upper tier (but not, he noted, the window in Rose's bedroom) and one or two lights which he found burning dim in the kitchen offices and other servants' quarters on the lower floor he would have thought the house empty. The silence of an abandoned place informed it all—below the upper story. But he was not to be satisfied with such negative evidence; he explored the dwelling minutely, room by room, story by story, passing with little interest through apartments by every sign dedicated to the tendency of his moral enemy, intent on one object only—to find Rose Trine, that one woman whom he loved, or else make sure she was not there.

He negotiated that last flight of steps which led to the topmost floor with extraordinary stealth, advised thereby by a sound, or rather a series of sustained sounds, which had theretofore been inaudible to him. Possibly they had not till then existed; possibly the man servant whom he found snoring in a chair outside a closed door had not fallen asleep and begun to snore until the moment when Alan set foot upon the lower step of that final ascent.

Turning the head of the stairs, Alan paused for a little, speculatively later on this man who must somehow be disposed of before he might solve the secret of that shut and guarded door.

Aside from actual violence no solution offered to the puzzle—and violence was abruptly forced upon him. No sound warned him of the door that opened at his back as he stood watching the sleeping guard. A piercing shriek was the first intimation he received that his presence had been discovered. It served as well to move him instantly into action: a single glance over his shoulder showed him the figure of a maid-servant in cap and gown, her mouth still wide and full of sound—and Alan fell upon the guard like a thunderbolt. The man had barely time to jump up and recognize the alarm; then a fist caught him on the point of his jaw, and he returned promptly to deep unconsciousness.

No time now for qualms of compunction on account of the savage ruthlessness of that blow; no time even to search the fellow for a key to the closed door: already the maid was taking the stairs in full flight and cry, four steps and a howl like a warlock's to every jump.

Backing off, Alan took a short run, cleared the prostrate body of the guard with a leap, and flung himself full force against the door, his shoulder striking a point nearest the lock. With a splintering crash it broke inward. Without dignity or decorum he sprawled on all fours into the presence of Judith Trine.

"Poor Mr. Law!" she cried, with a mocking nod, "always disappointed! I'm so sorry—truly I am!"

"Oh, spare me your sarcasm," he begged resentfully. "It's ridiculous enough, this whole mad business—" "But I am not sarcastic," she insisted with such sincerity that he opened his eyes in wonder. "Believe me, I am sorry for once it is I and not Rose whom you find locked up here! For, you see, I am locked up, by way of punishment—thanks to my having had pity on you once too often—while my father decamps mysteriously for parts unknown—"

"You don't know where he's gone, then?"

"Do you?" she asked sharply.

"In a general way. By special train to the West."

"Taking Rose?"

"So I'm told."

The woman choked upon her anger, but quickly mastered it.

"He shall pay for this!" she asseverated.

"Your father? I wish him nothing more nor less than your enemy," Alan assured her civilly. "But since it seems that he has gone, and Rose with him, if you'll forgive me, I think I'll be going."

"Alone?"

"That one word, uttered with all the significance that this woman knew as well how to infuse into her tone.

with glass.

The man in the white coat, Alan assured himself, was positively Barcus.

And hardly had he comforted himself with this assurance when his sardonic destiny struck the motor dumb.

In response to his look of dashed inquiry the aviator merely shook a weary head and muttered the words: "Engine trouble."

Swiftly the earth rose to receive the volplaning mechanism. Under Coast's admirable handling it settled down almost without a jar, on the outskirts of a city whose name Alan never learned.

For the biplane was barely at a standstill before he was out and, reeling with the giddiness that affects men after long flights, making his way as best he might toward the manager's office connected with a trainyard immediately adjacent to the spot where they had come to earth.

Lavish disbursements of money won him his way against official protests that what he demanded was an impossibility. Within twenty minutes, leaving Coast to follow on when and as best he might, Alan and Judith were spinning through open country in the cab of an engine running light, with only clear track between it and the special.

The several hours that ensued before the rear lights of the special were brought to view were none too many for the task imposed upon Alan of overcoming the scruples of the engineer and fireman.

Another minute, and less than fifty feet separated the two—the special train and the light engine, both hurtling through the light at top speed.

With a word to the engineer Alan crept out along the side of the boiler, with only a greasy handrail and a narrow foothold between himself and what meant death, or something closely resembling it, should he be shaken off by the tearing wind and the awaying of the locomotive.

It seemed an hour before he worked himself up to the cowcatcher—now within four feet of the rear platform of the special.

On this last he could see a woman's figure indistinctly silhouetted against the light through the door, and beside her a man in a white coat, clinging for dear life to the knob of the door—holding it against the frantic efforts of some persons inside to tear it open.

Another hour of suspense dragged out—or such was the effect—while the light engine with intolerable slowness bridged those four scant feet.

At length it was feasible to attempt the thing. Rose (he could see her strained white face quite plainly now) was half over the rail of the car ahead, ready to jump.

His heart failed him. It was too hazardous a risk. He dared not let her take it.

Something very like a shot sounded from the train and something very like a bullet whistled past his cheek, and proved the signal for several more.

Strangely, that knowledge steadied his nerves. Straining forward and holding on to a bar so hot that it scorched his palm, he offered a hand to the girl on the rail.

Her hand fell confidently into it. She jumped. His arm wound round her as she landed on the platform of the cowcatcher. He heard her breathe his name, then hurriedly passed her between himself and the boiler to the footway at the side. The fireman was waiting there to help her. Alan turned his attention to Barcus.

To his dismay he found that the engine was losing ground. The space was widening rapidly as Barcus released the knob and threw himself over the rail.

By a miraculous, flying leap, the man accomplished that incredible feat and gained the platform.

An instant later ten feet separated the engine from the special, as the engineer applied the brakes.

And this he did none too soon: for at the same time Marrophat and another appeared on the rear platform and opened a hot, but, thanks to the widening distance, ineffectual fire.

The engine ground slowly to a halt as the rear lights of the special train swept from sight round a bend.

CHAPTER XXXII.

Light Engine.

Toward the close of that summer's day it was the whim of that arch-manager of theatricals whom men call Fate to stage an anticlimax in the midst of a vast and hilly expanse of desolate middle western country—a rude and rugged disk of earth which boasted no human tenancy within a circle of its far-flung horizon and was bisected, not neatly, rather irregularly, by the flowing double line of steel ribbons which marked the railroad's right of way over the old Santa Fe trail.

So much for the stage: the light effects were provided exclusively by the crimson and purple and gold of a post-zenith sunset; the properties employed were simply a special train and what is known as a light engine (meaning a locomotive unhandicapped by cars); audience there was none, if one except the actors—who were one and all far too deeply preoccupied with the interpretation of their several roles to be aware of the show.

They were not many in number: perhaps half a dozen aboard the special train—which was making away as fast as it could run toward the glory of the sunset; as many more aboard the light engine.

It was the engineer who started the trouble. After bringing his monster to a full pause, he turned upon his passengers and—not without plausible excuse—violently indicted Mr. Alan Law for abuse of his and his fireman's trustfulness. This the said fireman (climbing forward over the tender) vigorously applauded.

They had been engaged, both gentlemen asserted vigorously, for nothing more dangerous than a quick run across the prairies, in furtherance of the unspecified plans of Mr. Alan Law and his companion, Miss Judith Trine. After starting out, they had wickedly and maliciously been bribed by the said Law to put on speed and catch up with the special, in order that he might rescue from the latter a young woman, his bride-to-be and the sister of Miss Trine.

But—and here was the grievance—they hadn't bargained to be shot at with pistols. And, precisely that outrage had been put upon them during and subsequent to the moment of rescue.

It was unhappy Mr. Barcus who precipitated the affair. This gentleman was suffering from a severe sprain to his sense of decent pride. In the service of Miss Rose Trine and her betrothed, Mr. Law, Barcus had blackened his face and hands to the hue of ebony and had garmented himself in the garb of a Pullman porter, surrendering himself to humiliating service to those aboard the special, suffering their insolence and scorn without a murmur, but with the tides of wrath mounting ever higher in his bosom.

And now, when at length he had won his freedom from that ignominious servitude, it was only to be sworn at and vilified, as a common nigger, by railroad hands!

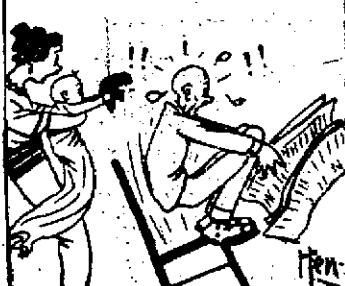

(TO BE CONTINUED.)

---AND HE DID

BABY WANT TO PLAY WITH UNCLE'S HAIR?

AND HE DID

Dinner Stories

A popular society woman announced a "white elephant party." Every guest was to bring something that she could not find any use for and yet too good to throw away.

The party would have been a great success, but for the unluckiest development which broke it up. Eleven of the nineteen women brought their husbands.

Some time ago the parson of a small country charge stopped at the home of one of his parishioners for lunch, and after being warmly welcomed he was placed at the table by the good housewife.

"We are going to have some more."

Put Your Whole Kitchen Into This Hoosier Cabinet

You can search the whole world and not find anything that saves so much time and labor in your daily work.

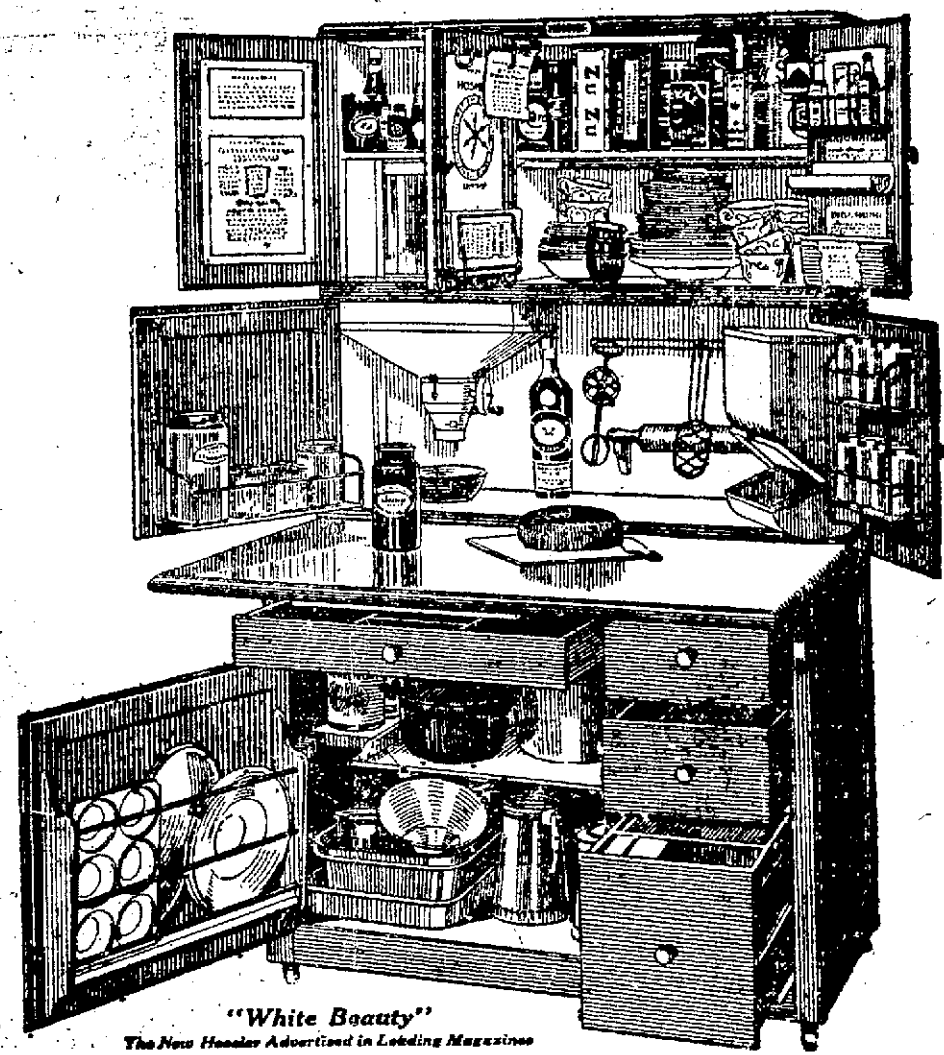

You think you have a convenient kitchen now, but have you ever counted your steps in a day's household work? They number thousands.

This new Hoosier saves them nearly all, for it combines your table, pantry and four cupboards all in one spot so you can sit down at work. It has places for 400 articles so conveniently arranged that you save even unnecessary reaching.

YOU WILL FIND 40 SPECIAL LABOR-SAVING FEATURES IN THIS HOOSIER—17 ENTIRELY NEW.

The new shaker flour sifter, for example, is a wonder. It is the only sifter made that shakes flour through instead of grinding it through. It makes your flour fluffy and light. It can't wear out.

This is only one of dozens of conveniences that save you one to three hours every day.

"White Beauty"—It Fits Your Kitchen
You Can Have One in Your Home Tomorrow
For a Single Dollar

There are now 700,000 Hoosiers in use, and now we expect to place many more here during the next few months—but only a few on this special Hoosier Plan. The terms of the Hoosier Plan are these:

1. One dollar puts the cabinet you choose in your home.
2. One dollar weekly dues quickly pays for it.
3. The low cash price fixed by the factory prevails strictly.
4. No interest. No extra fees.
5. This sale is under direct supervision of the Hoosier Company.
6. Your money back if you are not delighted with your Hoosier.

Only those women who grasp this opportunity tomorrow can be sure of getting one of these cabinets on this liberal Hoosier Plan. You realize, of course, that these terms could not be offered except on a very limited number of cabinets. After this sale—

1. The "Hoosier Plan" terms will be withdrawn.

2. Our regular terms will then prevail. It cannot take you ten minutes to decide, once for all, whether you intend to purchase now or later—and you are deciding, remember, whether or not you will save miles of unnecessary steps you now take.

But unless you at once decide, you may decide too late to own this greatest of all Hoosier cabinets on this liberal HOOSIER PLAN. You should without fail grasp your opportunity and see this cabinet tomorrow.

SCORELESS TIE WAS OUTCOME OF CONTEST

Football Enthusiasts Witnessed One of Best Games Ever Played in West at Madison Saturday.

Soldier have football enthusiasts in the middle west been treated to such an exhibition of clean, scientific football as was displayed in Camp Randall at Madison Saturday, when the Chicago University eleven were played to a standstill and a scoreless tie.

The game was played in the sunny Wisconsin players in the quarters of fierce playing. The Badgers of the Maroons remains on future games to be played. With the defeat of Minnesota by Illinois, the game at Madison remains a problem for forecasters to solve. If Illinois is defeated by both Chicago and Wisconsin and if Minnesota meets the same fate, then these two fighting machines will be tied for the conference championship. Should either one lose and the other win both remaining games they will be eliminated.

The Saturday game was an exploitation of clean football. Close observers say that Chicago line men outplayed their opponents, that Belknap's Des Jardien, that the Chicago line was stronger than the opponents, and the ends, heralding weaklings, really played better than Chicago. Anyway, something happened for Wisconsin was the aggressor all the way through after the first few minutes of play, when Chicago sought to push them off the field. Chicago rooters claim the disability of "Dolly" Gray, their star half, was the reason for their defeat. Gray had been in to the very end, and it is doubtful if he could have outplayed the Badger halves and their better half, "Couchie," who, it is said, was handicapped by a great game, but was handicapped by the fact that the Badgers were the aggressors.

Gray watched the game from a place of vantage in a motor cycle car on the edge of the field. He did not cheer himself, but he realized his men were up against a real football team where they had been given to believe it was a crippled, degenerate team that could be easily defeated. It was a genuine victory for Wisconsin, although at no period of the game did the Badger rooters lose heart, but, led by their cheer leaders, kept up incessant cheering for the men who carried their hopes in their keeping during the long, grueling contest. If there hadn't been a lot of cheering forward passes and a later had put that drop kick over the bar, the only attempt in the whole game, and if the Cardinals had not been penalized fifteen yards on a false start by the referee, when they were fifty yards from their op-

NEW COMPLICATION ON THE GRIDIRONS

ILLINOIS AND WISCONSIN THE WESTERN SURPRISES ON SATURDAY.

HARVARD WINS GAME

Defeats the Crippled Michigan Team by Narrow Margin—Princeton Held to Tie.

(By Strikes.)

Saturday brought the usual upsets for sport writers and football experts the country over. In the west Wisconsin holding Chicago to a tieless score, Illinois wiping the ground with Minnesota in the last quarter of play, seriously complicates the western championship.

Michigan, while not in the western conference, went east and with a crippled team, still suffering from the drubbing it received at the hands of Syracuse a week ago, held Harvard down to a seven to nothing score and according to experts who saw the game, really outplayed the Crimson.

Princeton was only able to tie Williams with a seven to seven score, while Yale walked all over Colgate, a third rate team, with a total of 49 to 7.

The real game in the east was the Michigan-Harvard contest. Harvard, considered the probable champion of the Big Four, was touted to win with ease, despite its crippled condition, against the broken machine of coach Yost. But Yost had his usual pocket full of surprises and held the Crimson down to a nothing to nothing score until the last quarter when Harvard managed to cross the line, the runner breaking away from a line buck and escape the Michigan tacklers.

It demonstrated the one thing most clearly. That western football teams are on a par with the eastern players and that inter sectional contests in the future will be more frequent. It is probable Michigan and Harvard will meet again next year, at Ann Arbor, and that Yale will take on a western eleven, probably Chicago.

Princeton is also considering playing in the west while Pennsylvania has done so for years.

Illinois Winner.

Dr. Williams Minnesota eleven crumbled before a eleventh hour assault of Illinois, the frequent use of the pass bringing victory to the physical director, who allowed his team to enter such a tournament. No team should play more than one hard game a week, and to play more than two games in a single week would be the height of folly.

The football season is too short, and the sections would be too large and too numerous for a central tournament, are other objections imposed by the Oak Park director, to keep within the bounds of reason as to the physical welfare of the school boys.

FOOTBALL TOURNEYS ARE NOT POSSIBLE

Plan to Hold Tournament Among High School Teams in Illinois Does Not Meet With Favor.

(SPECIAL TO THE GAZETTE.)

Oak Park, Ill., Nov. 2.—A football tournament to decide the championship of the high schools of the state would be highly desirable, but impracticable, in the opinion of Glenn Thistlethwaite, athletic director of the Oak Park High School, declared that no football team could stand the strain of the hard kind of games necessary in such a competition.

"It would undoubtedly add interest to high school football," Thistlethwaite said today, "if some method of determining the state championship could be devised." He then proceeded to show why it could not be done.

"A tournament plan is the only one which will determine a championship of any kind when there are so many schools interested, but no sensible physical director would allow his team to enter such a tournament. No team should play more than one hard game a week, and to play more than two games in a single week would be the height of folly.

The football season is too short, and the sections would be too large and too numerous for a central tournament, are other objections imposed by the Oak Park director, to keep within the bounds of reason as to the physical welfare of the school boys.

Defeats the Crippled Michigan Team by Narrow Margin—Princeton Held to Tie.

(By Strikes.)

Saturday brought the usual upsets for sport writers and football experts the country over. In the west Wisconsin holding Chicago to a tieless score, Illinois wiping the ground with Minnesota in the last quarter of play, seriously complicates the western championship.

Michigan, while not in the western conference, went east and with a crippled team, still suffering from the drubbing it received at the hands of Syracuse a week ago, held Harvard down to a seven to nothing score and according to experts who saw the game, really outplayed the Crimson.

Princeton was only able to tie Williams with a seven to seven score, while Yale walked all over Colgate, a third rate team, with a total of 49 to 7.

The real game in the east was the Michigan-Harvard contest. Harvard, considered the probable champion of the Big Four, was touted to win with ease, despite its crippled condition, against the broken machine of coach Yost. But Yost had his usual pocket full of surprises and held the Crimson down to a nothing to nothing score until the last quarter when Harvard managed to cross the line, the runner breaking away from a line buck and escape the Michigan tacklers.

It demonstrated the one thing most clearly. That western football teams are on a par with the eastern players and that inter sectional contests in the future will be more frequent. It is probable Michigan and Harvard will meet again next year, at Ann Arbor, and that Yale will take on a western eleven, probably Chicago.

Princeton is also considering playing in the west while Pennsylvania has done so for years.

Illinois Winner.

Dr. Williams Minnesota eleven crumbled before a eleventh hour assault of Illinois, the frequent use of the pass bringing victory to the physical director, who allowed his team to enter such a tournament. No team should play more than one hard game a week, and to play more than two games in a single week would be the height of folly.

SPORTS

SCORELESS TIE WAS OUTCOME OF CONTEST

Football Enthusiasts Witnessed One of Best Games Ever Played in West at Madison Saturday.

Soldier have football enthusiasts in the middle west been treated to such an exhibition of clean, scientific football as was displayed in Camp Randall at Madison Saturday, when the Chicago University eleven were played to a standstill and a scoreless tie.

The game was played in the sunny Wisconsin players in the quarters of fierce playing. The Badgers of the Maroons remains on future games to be played. With the defeat of Minnesota by Illinois, the game at Madison remains a problem for forecasters to solve. If Illinois is defeated by both Chicago and Wisconsin and if Minnesota meets the same fate, then these two fighting machines will be tied for the conference championship. Should either one lose and the other win both remaining games they will be eliminated.

The Saturday game was an exploitation of clean football. Close observers say that Chicago line men outplayed their opponents, that Belknap's Des Jardien, that the Chicago line was stronger than the opponents, and the ends, heralding weaklings, really played better than Chicago. Anyway, something happened for Wisconsin was the aggressor all the way through after the first few minutes of play, when Chicago sought to push them off the field. Chicago rooters claim the disability of "Dolly" Gray, their star half, was the reason for their defeat. Gray had been in to the very end, and it is doubtful if he could have outplayed the Badger halves and their better half, "Couchie," who, it is said, was handicapped by a great game, but was handicapped by the fact that the Badgers were the aggressors.

Gray watched the game from a place of vantage in a motor cycle car on the edge of the field. He did not cheer himself, but he realized his men were up against a real football team where they had been given to believe it was a crippled, degenerate team that could be easily defeated. It was a genuine victory for Wisconsin, although at no period of the game did the Badger rooters lose heart, but, led by their cheer leaders, kept up incessant cheering for the men who carried their hopes in their keeping during the long, grueling contest. If there hadn't been a lot of cheering forward passes and a later had put that drop kick over the bar, the only attempt in the whole game, and if the Cardinals had not been penalized fifteen yards on a false start by the referee, when they were fifty yards from their op-

MISSION OF LUTHER IS SERMON SUBJECT

REV. T. C. THORSON GIVES
STRONG ADDRESS ON 300TH
ANNIVERSARY OF POST-
ING THESE.

DEBT TO REFORMATION

Free Institutions of Europe and America
Find Their Foundation in
German Awakening Three
Centuries Ago.

Lutheran churches of Janesville yesterday celebrated the anniversary of Reformation Day—the 300th observance of Martin Luther's drastic action—his nailing of the 95 theses to the door of the Wittenburg cathedral in Saxony.

Practically every Lutheran church, Reformed, Evangelical, Zion's Evangelical, Trinity Evangelical, English, Swedish, Norwegian and the entire remainder of the large number of branches resounded with the strains of Luther's favorite hymn, "Ein Feste Burg," based on the 46th psalm. In the English speaking churches, the hymn is translated and sung. The first sentence is "A Mighty Fortress Is Our God."

Reformation services here yesterday were held at the Norwegian Lutheran and the St. Peter's English Lutheran churches. T. C. Thorson, pastor of the former congregation spoke at the morning services on "The Lutheran Church and Its Mission." In the evening his subject was "Why I Am a Lutheran." At the morning service he said, in part:

Bible and the Reformation.
"When King Josiah ascended the throne, Israel was steeped in vice and corruption. A heathen shrine flourished on every hill top in Judah. The young king, anxious to preserve the faith of his fathers, instituted several reforms. One day a man, Hilkiah, by name, while plying his business in the temple, for he was a priest, found to his surprise, a book. The book had long been hidden; it was the book of the Lord. The king was told of the discovery. The book was read to the king. He trembled at hearing the word of God. Hastily he summoned all Israel and read in their ears all the words of the book of the Covenant, which was found in the house of Jehovah. The people trembled before God and confessed their sins. The heathen shrines were destroyed, the idolatrous priests were put down and the word of God restored to its place of authority in Israel and as a result we witnessed a reformation in the national life of Israel unparalleled in the annals of its history.

There is a striking resemblance between the finding of the Book of the Covenant in the time of Josiah, and the finding by Luther of the Bible at Erfurt and the resultant reformation. The night of medieval ignorance and superstition hung low and ominously over the face of the earth. Here and there over the wide expanse flickered the light of science and religion—nearly all the learning was confined to the clergy and they were, with a few exceptions, profoundly ignorant. Despotism, religious and civil, like a great tidal wave, had submerged Europe. Martin Luther, then a student at the University of Erfurt, while examining some volumes in the library discovered, like Hilkiah, a wonderful book. To Luther and his contemporaries, it was a hidden book, as it was to Hilkiah and his people—with this

difference, however, that Hilkiah found the word of God buried in a language inaccessible to the masses.

Awakening in Germany.
"Luther, like Hilkiah, was profoundly moved by the contents of the book. A new light thrust in upon his soul. It was the first rays of dawn that heralded the daybreak of the modern world. Just as Josiah summoned Israel and read in their ears all the words of the Book of the Covenant which was found in the house of Jehovah, so Luther after translating the Bible, not from the Latin vulgate which had been done before, but from the original Scriptures, summoned the German people that he might communicate to them all the words of the Book which he found in the library at Erfurt.

"What happened in Israel when the Book of the Covenant was read to the people, happened in Germany. There was a general awakening, like the awakening of nature in spring time. The Word of God, like the sun, came out from the long wintry night of medieval darkness, and shone again in its pristine power and glory as it did in the early apostolic days. The gospel was preached in its simplicity and purity and the sacraments rightly administered. The reformation precipitated by Luther was heralded by Huss and Jerome of Prague Zwingle in Switzerland, Wycliffe in

England, Lefevre in France, Brasmus in Holland, and the spirit of inquiry that bred over the people was signs of the approaching reformation. The reformation launched by Luther was not confined to Germany alone, but spread and reinforced the reformatory movements in other lands. It was the same spiritual life pulsating through the people of Germany, that surged like mighty waters through Switzerland, France, Holland, Sweden, England and Scotland and washed away much of the crime, corruption and pollution of the medievalism.

"Without the Lutheran Reformation, other reformatory movements within the church would have been only partially successful. That is a matter of history. While the aim of the Reformation was primarily religious, its beneficial influence touched every sphere of human activity.

Owe Much to Reformation.
"Had it not been for the success of the Reformation there would not have been the free Netherlands, there would not have been the free England, and had it not been for the Reformation there would not have been the free republic of the United States. The constitutional government under which we live, and the religious freedom which we enjoy, and our public school system, which we cherish, are all direct products of the Reformation. "Now let us never forget that the

Reformation is the result of the book that was translated and placed into the hands of the individual.

"Now what are the cardinal doctrines of the Lutheran Reformation? In their historical order they are, justification by faith, the supreme authority of the Scriptures and the right of private judgment. These are the cardinal doctrines of the Lutheran church today. It is the faithful teaching and application of these doctrines to present day conditions that the great mission of the Lutheran church consists in America. In an age when men seek salvation through works, when evolution is proclaimed from press and pulpit with its resultant doctrine that sin is only a survival of animalism to be outgrown, must the Lutheran church proclaim that Faith, the gift of God's grace, is the hand that lays hold of God's free forgiveness and connects the soul with God. Of no less importance is the second doctrine. The attacks of higher criticism upon the Bible, the denial that God revealed His will therein and the denial of the verbal inspiration of the Scriptures all undermine and destroy the foundation upon which the first doctrine rests. The Lutheran church stands firm upon the doctrine of verbal inspiration. The Lutheran church has but one infallible guide which is neither a man-god nor tradition nor an enlightened conscience, but the infallible Word of God. This doctrine she must proclaim ever against all denominations that have forsaken the cardinal doctrine of inspiration.

Right of Private Judgment.
"But close upon the heels of the second doctrine of inspiration follows the third, the right of private judgment. Upon this doctrine all Protestantism unites. It declares for religious liberty, the right of the individual to interpret the Scriptures. In the words of Luther: 'Let there be private judgment; liberty of conscience; the right to read and interpret Scripture, in spite of priests; so that men may think for themselves not only on the doctrines of eternal salvation but on all the questions to be deduced from them, or interlinked with the past or present or future institutions of the world. Then shall arise a new creation from dreaded destruction, and emancipated millions shall be filled

with an unknown enthusiasm and advance with the new weapons of reason and truth from conquering to conquer until all the strongholds of sin and Satan shall be subdued, and laid triumphantly at the feet of the throne whose right it is to reign.'

"Each individual is born with a mission. The Lutheran church has been planted in the United States with a mission for such a time as this. It stands today free and unshackled by modern philosophy and destructive criticism. It holds aloft the banner of the cross with these words: 'By This Thou Shalt Conquer.' Now that it is true that without the reformation we would not have had a free United States, with all the privileges political and religious which we enjoy, it is equally true that no church is more in accord with the spirit and purpose of this free republic than the church which embodies the cardinal principles of the Reformation, justification by

faith, the supreme authority of the Scriptures and the right of private judgment, the church of the Reformation.

SEVERE RHEUMATIC PAINS DISAPPEAR

Rheumatism depends on an acid in the blood, which affects the muscles and joints, producing inflammation, stiffness and pain. This acid acts into the blood through some defect in the digestive process.

Hood's Sarsaparilla, the old-time blood tonic, is very successful in the treatment of rheumatism. It acts directly, with purifying effect, on the blood, and improves the digestion. Don't suffer. Get Hood's today.

Will Wisconsin Surrender?

MR. PHILIPP SAYS, "I AM A BUSINESS MAN."

WHAT IS HIS BUSINESS?

IT IS THE RENTAL OF PRIVATE CARS.

WHAT ARE PRIVATE CARS?

1. They are the tank cars which gave Standard Oil Company monopoly of the oil business.

2. The private refrigerator car gave the meat packers control of the fruit business of America.

The private car business prospers when the railroads extend favors in service. It dies if favor in service is withheld.

The Railroad Commission of Wisconsin has three members: Mr. Harlow, Mr. Roemer, and Mr. Erickson. Mr. Harlow's term expires February, 1915. Mr. Roemer has announced his intentions to resign. Mr. Erickson is to enter the United States service.

The Governor you elect on Tuesday, November 3rd, will appoint their successors for terms of ten years.

Will Mr. Philipp appoint members unfriendly to the railroads upon whose favor his business lives or dies?

Do you want to shoulder the railroad yoke against which Wisconsin fought for twenty years to make us free?

The control of the railroad commission in Wisconsin is worth millions to the railroads. And, it would be better that the commission be swept into the sea than to legalize for the railroads the control of themselves.

Mr. Shipper, Mr. Consumer, Mr. Taxpayer, Mr. Voter, under these circumstances are you going to permit Mr. Philipp to become governor of the State of Wisconsin? Or

Will you vote and work for John C. Karel for Governor who is pledged to appoint members on that Commission who will protect the interests of the whole people?

WILL WISCONSIN SURRENDER?

JOSEPH MARTIN

Chairman, Democratic State Central Committee.

Buggy Whips 1-2 Price

Wonderful Har- ness Bargains

SADLER'S GREAT SALE OF HARNESS AND HARNESS GOODS.

Here's the greatest sale of the year. Think of saving money in the face of an advancing market! Everyone knows that the leather market is going up at a rapid rate. But we come along with a sale and offer you harness and harness goods at less than the present cost of the raw material.

SEE NORMAL VOTE AT POLLS TUESDAY

European War Distracts From Election, But Turnout of Electors Is Expected to Be Satisfactory.
(Continued from page one)

sale of liquor and also upon an amendment repealing the Rose county local option law and the interest is intense. The suffrage question has been hard fought and the women are keeping up the struggle for the right to vote until the polls actually close. The fight for the United States senatorship here is between Warren G. Harding, Republican, Attorney General, and Governor Hogan, Democrat, and A. L. Garford, Progressive. Governor Cox is a candidate for re-election opposed by Representative Frank E. Willis, Republican and James R. Garfield, Progressive.

According to most of the reports from Indiana there is unusual lack of interest among the voters over the outcome. Senator Benjamin F. Shively is opposed by former Senator Berberidge and by Hugh T. Miller, Republican. The efforts of the leaders of the various parties to stir up the voters have failed and it is admitted that the State will fall below normal.

In Illinois a genuine "Gilkenny cats" fight is in progress. Here the senatorship is the big issue, overshadowing everything else. Roger C. Sullivan, for some years the Democratic boss of Illinois whose defection from Champ Clark at Baltimore state the slump for President Wilson that made the latter's nomination possible won the Democratic nomination at the primaries. This, too, despite the open opposition of Secretary of State Bryan. Sullivan is being fought tooth and nail for election by Lawrence Y. Sherman, the present Senator and by Raymond Robbins, the Progressive candidate. In the eighteenth Congressional district "Uncle Jow" Cannon is a candidate for comeback honors, and in the adjoining nineteenth William B. McKinley is also trying to get his old seat back.

In Iowa the struggle is a determined one. Senator Albert B. Cummins is opposed for re-election by Representative Maurice Connolly, Democrat and Casper Schenk of Des Moines, Progressive. The Democrats are hopeful that the split in the Republican ranks will help them, they are also making a determined effort to land a Governor. The gubernatorial candidates are George W. Clark, Republican; John T. Hamilton, Democrat and George C. White, Progressive.

On the Pacific Coast the fight in California, Oregon and Washington are all interesting and bitter. The women voters will cut a decided figure in the result there. In California the existence of the native wine industry hinges on the outcome of the voting on the prohibition amendment. The interest in this fight is intense. Both the wets and drys have sent their best of their money into the state and they have not overlooked a single hamlet. Governor Johnson is being opposed for re-election by Captain John D. Fredericks of Los Angeles, Republican who came into fame as the prosecutor of the McNamara and by John B. Curtin, Democrat. For the Senatorship the fight is between Francis J. Heney, the progressive candidate; Representative William Knowland, the Republican candidate; and James D. Phelan, the Democratic candidate.

In Oregon, Senator George E. Chamberlain, the Democratic Senatorial incumbent is opposed by William Hanley, the Progressive, and A. Booth, Republican. The fight for the Governorship, however, overshadowed the Senatorial contest. There are six candidates, P. M. Gil, progressive; Will E. Purdy, non-partisan; C. J. Smith, Democrat; W. S. Uren, independent; W. J. Smith, Socialist and James Withycombe, republican. Incidentally, in the United States, in addition to the prohibition issue the voters will pass upon the abolition of the death penalty in capital cases; abolishing the State Senate, and making a universal working day of eight hours.

In Washington the big fight has been on the prohibition amendment with both sides arguing its merits. The Senatorial contest, Senator Wesley L. Jones has been bitterly opposed by Ole Hanson, the Progressive and W. W. Black, Democrat. The attitude of Senator Jones in the trials of Senator and ex-minister, Lorimer, for whose exoneration he voted, has entered largely into the fight here. These are the most spectacular of the fights. In the other states the interest is less but for most of them they are hardly as much of national interest as in those mentioned above.

You can own your own home easily by reading and acting on the offers contained in Gazette Want Ads. Do it now.

allegation as a campaign argument and former Governor James H. Hawley who is opposing Senator Brady, the present incumbent, claims that he is certain to be elected.

Bitter on Coast.
On the Pacific Coast the fight in California, Oregon and Washington are all interesting and bitter. The women voters will cut a decided figure in the result there. In California the existence of the native wine industry hinges on the outcome of the voting on the prohibition amendment. The interest in this fight is intense. CANDIDATES FINISH THEIR CAMPAIGN IN MILWAUKEE

(SPECIAL TO THE GAZETTE)
Milwaukee, Wis., Nov. 2.—[Special.] Their last bids for votes in the state election tomorrow, most of the state leaders today spoke in Milwaukee. State chairmen of the Democratic and Republican parties both claim victory today but used the best vote getters to advantage in districts where their efforts would count the most.

Independents claimed big game to Blaine as the result of Senator Follette's tour of the state. Meanwhile the district and precinct leaders of all parties are preparing to get out the vote for the big test tomorrow, and the eyes of politicians over the country were turned to Wisconsin as one of the doubtful states whose returns will have a bearing on political opinion the country over.

BELOIT NORTH ENDS WIN FINAL CONTEST

Loss of Confidence and Fighting Spirit Allows Beloit to Win Title by Taking Last Game.

Four support lost the deciding game between the Janesville Cardinals and the Beloit North Ends Sunday afternoon by the score of 15 to 4. The game was called in the first of the sixth inning because of the injuries to Hall and Porter, members of the Cardinals line.

Beloit, by winning this game, is entitled to lay claims to the championship of southern Wisconsin and northern Illinois, having defeated the Cardinals two out of three games in a series to decide the title.

The game yesterday further showed that the North Ends have the Cardinals' "number" at the Beloit diamond, for the local team played very poor ball, behind Tille and as a result allowed ten runs to count which should never have been allowed to be chalked up in the scorebook. The Cardinals lacked confidence and as a result the North Ends walk away with the game during the early stages by allowing easy flies to go for triples and even home runs. A sale of wind was blowing which carried the ball far beyond its normal course and the fielders let high drives slip past them while runners were traveling the cushions.

The Cardinals obtained a good start when Berger walloped the second ball pitched by Wooten for a clean four-base drive in left field. The ball sailed way over Hughes' head, while Berger raced around the cushions for the first run. Sullivan followed with a double, but Wooten tightened and retired the side.

Beloit in their half of the first, scored three runs on a home run which went for a home run. Tille allowed Olson to get to first on an error and Cornell sacrificed. Porter making the out alone. Ripley bunted safely and Gharitty hit a high fly to Berger who misjudged the ball and then failed to hold the ball on the bound. Three runs counted for Gharitty raced around the cushions for the first run. Sullivan followed with a double, but Wooten tightened and retired the side.

Both teams were held scoreless in the second, but in the third Beloit counted seven on four hits. In the fourth they counted four more. In the fifth the Cardinals made an attempt to "come back" and counted four through the wildness of Wooten and a single by Hall, with Berger and Sullivan waiting on the far sacks. Hall registered on an error by Wooten, who failed to field a bunt to catch Neir.

Cardinals—Berger, 11; Sullivan, 11; Hall, 11; Neir, 11; Croak, 11; Johnson, 11; Porter, 11; Tille, 11; Beloit—Olson, 11; Cornell, 11; Rip-

ley, 11; Gharitty, 11; Perring, 11; Cavanaugh, 11; Hughes, 11; LeVahan, 11; Wooten, 11.
Hits—Beloit, 7; Janesville, 4.
Earned runs—Beloit, 5; Janesville, 4.
First on balls—Off Wooten, 4; Tille, 1.
Home runs—Berger, Gharitty.
Struck out—Tille 2; Wooten, 5.
Double plays—Perring, Cornell to LeVahan.

Around the Circuit.
Perring, who played third for Beloit, is a Kansas City Red man and he drove in four runs with his out-law warstick.

Fitzpatrick, the ump, had a voice that sounded like a phonograph that needed oiling, but Fitz called them right. He was almost as good with the break voice as "Silk" O'Laughlin, the Cardinals, who have had a successful year despite the reverses at the hands of the North Ends in the series.

Each Janesville fielder had an opportunity to field in the left garden, where the errors were made. Neir muffed a fly that went for two bases and then "Deertoot" Sullivan tried the game. There were six errors made in the outer garden.

Tille, after the support failed him, did not attempt to pitch ball, while Cardinals lacked confidence and as a result the North Ends walk away with the game during the early stages by allowing easy flies to go for triples and even home runs. A sale of wind was blowing which carried the ball far beyond its normal course and the fielders let high drives slip past them while runners were traveling the cushions.

The Cardinals obtained a good start when Berger walloped the second ball pitched by Wooten for a clean four-base drive in left field. The ball sailed way over Hughes' head, while Berger raced around the cushions for the first run. Sullivan followed with a double, but Wooten tightened and retired the side.

Beloit in their half of the first, scored three runs on a home run which went for a home run. Tille allowed Olson to get to first on an error and Cornell sacrificed. Porter making the out alone. Ripley bunted safely and Gharitty hit a high fly to Berger who misjudged the ball and then failed to hold the ball on the bound. Three runs counted for Gharitty raced around the cushions for the first run. Sullivan followed with a double, but Wooten tightened and retired the side.

Both teams were held scoreless in the second, but in the third Beloit counted seven on four hits. In the fourth they counted four more. In the fifth the Cardinals made an attempt to "come back" and counted four through the wildness of Wooten and a single by Hall, with Berger and Sullivan waiting on the far sacks. Hall registered on an error by Wooten, who failed to field a bunt to catch Neir.

Cardinals—Berger, 11; Sullivan, 11; Hall, 11; Neir, 11; Croak, 11; Johnson, 11; Porter, 11; Tille, 11; Beloit—Olson, 11; Cornell, 11; Rip-

LIKELY TO SUCCEED GEN. WOTHERSPOON

Major-Gen. Hugh L. Scott.

During the extended Mexican trouble the burden of border duty has fallen on the shoulders of Major-Gen. Hugh L. Scott. There is an impression at Washington that for his services in that capacity he may be rewarded by being made chief of staff of the army on the retirement of General Wotherspoon on Nov. 22.

FACE COVERED WITH PIMPLES— RESINOL CURED

Atlanta, Ga., April 24, 1913.—"My face was covered with pimples which defied creams, soaps and cosmetics. They were a source of constant humiliation to me, coming in contact with many strangers as I do, as a business woman.

"By the time I had finished a cake of Resinol Soap and half a jar of Resinol Ointment, my skin was soft as velvet, and as smooth. My friends were stunned, and everyone asked me what I had done. When I told them, I think they hardly believed it, for the transformation was simply wonderful.

"Since then I have been using Resinol Soap and shall never be without it again, for I have learned the delights of a clear, soft, beautiful complexion that may be attained by its constant use." (Signed) Miss E. P. Gaddis, 264 South Pryor St.

Resinol Ointment and Resinol Soap sold by every druggist.
